

ProShare 2018 *for networking*

ADMAN and Staff Assembly have joined efforts to offer an opportunity for staff professional growth and networking.

ProShare is a networking program that aims to help managers, aspiring managers, and staff at all levels form connections with campus and medical center colleagues for mutual guidance and support.

Starting January 2018 and running through July, participants in ProShare will be assigned to a small cohort that will meet monthly for about 90 minutes. Each of the cohort members will take a turn hosting the meeting that could include department tours, presentations to the group, and discussions of key management issues.

For more information and to enroll to participate in the 2018 program, visit:
